

Puttenham Parish Council

Exceptional weather conditions

As we have been experiencing one of the hottest summers on record, resulting in a number of local fires, it is imperative that villagers play their part in keeping the area safe. Please:

No fires, BBQs or smoking in and around the common and be extremely careful in your own gardens.

Dog Fouling – Matters have actually got worse..... Poo now found in the children’s playground

This is totally unacceptable and a health hazard. There is absolutely no necessity for this especially as there are a number of designated dog poo bins around the recreation areas and one adjacent to the playground. As a dog owner/dog walker you have a responsibility to pick-up all your dog poo, every time you go for a walk. If you can’t get to the designated bins, take it home with you.

Speed Survey

Surrey County Council have now confirmed that the speed survey that is required to achieve the 20 mph speed limit throughout the village, which is part of the implementation of the Neighbourhood Plan, will now take place in September.

Tidying up the village

It has been suggested that in attempt to alleviate the litter, mostly projected from the numerous delivery vans, that villagers take responsibility for litter picking the areas in front of their properties. We haven’t seen the street cleaners for a while so hopefully this will help spruce things up.

A reminder about the expansion of Farnborough Airport and its effect on Puttenham, Wanborough, Shackleford and surrounding villages

Don’t forget to have your say as there is an ongoing petition at <https://www.change.org/p/jeremy-hunt-mp-stop-the-noise-and-environmental-harm-caused-by-farnborough-airport>

Mike Blundell Jones – Chairman.
